Sir,

Subject - Improving the Karighatta and Church Road in Ganjam -- Seringapatam

I have the honour to invite kind reference to this office Letter No A5 2470/40-41 dated 6-1-1942 requesting that sanction of Government may be obtained for a Town Improvement Grant of Rs 1450/- towards the above work--if the Public Works Department cannot be asked to execute the work out of the allotment made to the Mandya Division and to request the favour of very early orders in the matter

2 I may add in this connection that the Superintending Engineer, Mysore Circle has raised the question as to the agency that will maintain the road after it is improved A copy of his docket No 2942 dated 13-8-42 received with the Mandya Division Executive Engineer's Memo No 106 dated 17-8-42 in enclosed As the road is situated within the limits of the municipality, the maintenance thereof has to be undertaken by the Seringapatam municipality, but on account of the very poor financial position of the municipality they may not be able, under the present circumstances, to set apart sufficient funds in the budget for the maintenance of these metalled roads Larger grants out of the Town Improvement Grants will therefore have to be applied for at least for some years to come, if the cost of maintenance of

P.T.O

of maintenance of this road is to be met by them

3 In the report accompanying the estimate the Executive-Engineer has stated that the whole sedtion of the road is to be kept in a good condition as the distinguised ~~gents~~ guests are to be taken over when they visit Mysore fc Dasara As the municipality is not in a position to meet the cost of maintenance of the road in question it would be of great help to the Municipality if for the above said reason, the metalling of the road as also its annual maintenance are teken up by the Public orks Department out of the allotments at their disposal

4, The matter is pending for nearly 2 years and I therefore request that early orders of Government may kindly be obtained

I have the honour to be
